

### **Smart.BE-RE Centre to supply balanced energy to TT<->RA, QR, MX.**

To supply BE-RE to Top Touristic(TT) <-> Rural Area(RA) @Cancun, QR, Mexico.

Current stage's to accomplish seeking of investors, suppliers and technology partners of Smart Bio-Energy/BE - Renewable Energy/RE to establish and become to offer (2 - 5 years scope) best balanced energy and tools in-between TT<->RA (70 – 120 km long).

Together our local close-partner we count with around 35 Ha. (just 70 km. from Cancun city) to establish our Smart.BE-RE Centre. Defined scope for 2 potential projects (Photovoltaic, Energy efficiency). We gained local partners and steps to get support/approval of private/public R&D entities for near-future initiatives: Photovoltaic, Energy Efficiency, Waste Management, Recycling, Bio/Agrofood,...

Mission's to improve energy efficiency, quality/cost of living, through BE-RE tools,

methods in order bio resources, up-coming infrastructures, and a full of contrasts region. 1Q/2014, approved a highway along the corridor.

We are a Channel Partner to enable German technology manufactures and suppliers to Latin-America. Together our local-based team we collaborate investors, institutions, clusters, SME & big firms with, to demonstrate BE-RE benefits.

### **Projektdaten im Überblick**

**Betreiber** Portusland Business Development and Trade UG

**Standort** Königsallee 60F, 40212 Düsseldorf

**Projektbeginn** 2015

#### **Technische Kennzahlen**

Mexico's generating electricity cap.: 62 million kW (2010)

Electrical power: 127V / 60 Hz / Plugs A, B

Field-work ava.: Around 35 Ha.

Supply area: 30, 70 up-to 120 km

Population (QR, MX): 1.325,578 (2010)

Population (A. Scope/AS): 661,174 (")

Population with electricity (AS): 95,9% (")

Population with tube water (AS): 77% (")

Economic Active Population (AS): 61,8% (")
