

Offer 1Q/2018 to apply to our activated Representation Programm 2018 - 2020 to Improve your Business Figures Abroad

Workshops ↔ Fieldwork ↔ Deliverable

» Have you tried succeeding in foreign markets? » Which strategies & methods did you make use of? SMDP? Up-Selling? SPANCO? Cross-Selling? SIPOC-Analysis? Agile? Lean? Scrum? Volere?

» Have you obtained fishing ideas, patterns, key / global accounts? Have you applied Business Intelligence? Predictive Modeling? Have you obtained Market Intelligence?

Our Approach → Workshops ↔ Fieldwork ↔ Deliverable is effective and can gain!

Key Points of our Representation Program 2018 - 2020

HPK1. Description & Focus

Our Representation Agreement and Business Model focused on the improvement of business figures, willing to do and to care your market entry, positioning, building best Sales, Supply and Distribution Channels thanks to our know how of most convenient methods and to our senior team of local-market-based collaborators and so to collaborate to expand your business as your **Sales, Supply and Distribution Channel Partner**.

Based on well-structured Workshops (1 per Quarter, 60-90min. each) we are going to define the **GAP** to solve in the **Fieldwork / Pilot Markets**, giving operational and analytical views of our results –e.g. how it's growing your positioning and our progress getting new RFQ's, Orders, Contracts and the details of the Sales Cycles and Negotiation Processes in the Key and Global Accounts.

HPK2. Main Benefits

During the workshops beyond brainstorming and synergy we are going to get benefits for You:

- ▲ Smart Market Entry and Positioning within the Sales, Supply and Distribution Channels
- ▲ New Quotations / RFQ's, Sales Orders, Contracts, Projects with best Clients and/or Partners
- ▲ Market Intelligence (new patterns, differentiators, fishing ideas, GAP's and business intelligence)
- ▲ Better integration and focus (clear Mapping of Quality Assurance, Regulatory Affairs and Certifications)
- ▲ Strong Follow-up –including Analytical follow-up of Production, Sales, Supply and Distribution Processes

HPK3. Scope (Pilot Markets)

We operate internationally thanks to our built Networks especially focus on D-A-CH, BE-NE-Lux, Southern Europe (Spain, Portugal, Italy), NAFTA / North-American (Canada, USA, Mexico), and LATAM / Latin American regions >>PACIFIC Alliance (Mexico, Colombia, Peru, Chile) and MERCOSUR (Brazil, Argentina, Paraguay, Uruguay, Venezuela, Chile). Our collaborators are local-market-based Presales, Business Developers, and Engineers (with valuable Skill Sets, Contacts, and Coaching & Networking). We suggest to start within **1 Pilot Market Group – PMG-** / 2-3 Pilot Markets (pre-listed on **page 3**) that might concentrate priorities to improve.

HPK4. Our Approach / Business Model & What we need and Why?

4.1 Our Approach / Business Model → Workshops ↔ Fieldwork ↔ Deliverable

Our Approach / Business Model starts with that strong continuous link with the aim to be soon your **Sales, Supply and Distribution Channel Partner**. **Workshops** represents the definition of the **GAP** to solve in the **Fieldwork** corresponding to the assigned **Pilot Market Group -PMG** and quite important -always associated to the Sales and Distribution Channel. We are going to discuss analytical criteria, fishing ideas, consistent tangibles and of course results e.g. -new RFQ's, Sales Orders, Clients, Global Accounts, Partners.

Then, we are going to the **Fieldwork** to get the **Quarter fishing** (through our **Networks / Portusland BD&T's Channel**) of the requested **Category of Service (CS) / Deliverable** (fully listed in Annex 2, **page 4**), e.g.:

- ▶ **CS1.** Market Entry and Positioning (new RFQ's / Quotations, Sales Orders, Contracts, Projects)
- ▶ **CS2.** Market Research and Quality Assurance (Feasibility, Competences, SIPOC and Testing Analysis)
- ▶ **CS3.** Cost Reduction Projects (focus on Sales, Procurement, Inventory Optimization, & Production Planning)
- ▶ **CS4.** Industrial Services (Trade Polices and Certifications Analysis, Regulatory Affairs Mapping / Workflow)
- ▶ **CS5.** Facility Services (SPOC Contact/Technical Analyst, -seek of Resources, Partners, Investors, Alliances)

Offer 1Q/2018 to apply to our activated Representation Programm 2018 - 2020 to Improve your Business Figures Abroad

Workshops ↔ Fieldwork ↔ Deliverable

4.2 Quarter fixed fee & our Offer for 1Q/2018

Because strong and recurrent **Push + Pull Marketing** and **Presales** efforts from our local market-based resources representing you in the chosen **PMG / 2-3 local market fields**; we kindly and democratically ask to all our Representations for a **fixed fee / Quarter** (usually between 3500 € to 5700 € / Quarter) in order to a scale of the figures: **Company size, Founded year, Turn over and % Quota dedicated to exportation.**

With the GAP to solve - defined, we'd agree the minimum fee possible. Currently, we have a **1Q/2018 Offer** and then **to the initial fee of _____ € for 1st. Quarter**, we offer to apply a **20% reduction** from the **3rd. Quarter** (_____ €) and another one of **25%** from the **5th. Quarter** (_____ €). Then, the **Quarter fixed fee** it's going less and less in the mid - run. To formalize our collaborating -we need at least **50%** of **1st. Quarter fee** in advance.

4.3 Mutual Non-Disclosure Agreements (usually per 18 - 24 months)

With a Mutual Non-Disclosure Agreement (**Mutual NDA –EU Standard**), both parts are going to be secure and happy for collaborating. We are going to be able to represent you in the markets with total confidence -where our steps, investments and efforts to make that face-to-face client / partner interaction are linked as your portfolio's business partner within the Sales, Supply and Distribution Channels.

4.4. Representation Agreement (ideally 18 - 24 months).

We would like to represent you under some of the main levels of collaborating / natural stages of collaborating:

I. Your Inquiries. As your **Representative** we are going to provide our best local full client face interaction KAM / Project Management, Pre-Sales - Post-Sales support. For each successful order we would like to obtain either a pre-determined commission %, or a margin of operations / benefit (depending on complexity, volume / size of the order / project).

II. Our Clients Requests. As your **Channel-Partner** we are going to get new clients / partners - providing best SLA (Service Level Agreements) in between all the entities involved and focus on the needs / requirements. For each successful order we would like to obtain either a pre-determined commission %, or a margin of operations / benefit (depending on complexity, volume / size of the order / project).

III. Our Projects. Our efforts as your **Sales, Supply and Distribution Channel Partner** would bring us possibilities to win projects. In order the project size, the complexity and the entities, resources and responsibilities involved, we would share a margin of operations or a margin of benefit – usually for long-run projects- or just a fixed amount or percent per stage.

Looking forward to hearing from You,

Dipl.-Ing. Javier Saucedo O.

PMG & CTR. Pilot Market Groups -PMG- and our Channel Top Resources -CTR-

Sales and Distribution Channels have different structure and typology that most of the times depend on the *Hinterland* and *Foreland* of the nearest port or distribution centre of the region, the mature of the market, among others. We used to apply dynamism and flexibility to do a smart and rapid positioning.

The following **Table T1 Basic Service Components** it's an overview of the basic resources we are going to apply in the 2-3 Pilot Markets (1 Pilot Market Group - PMG). For instance, we defined 3 possibilities of Pilot Markets Groups – PMG- , to help the decision for the most important PMG_□ we must to concentrate first.

Table T1. Basic Service Components

Medium – High Market/Region Priorities*(1)	Services and Basic Resources included in the Offer - Quarter Fixed Fee *(2)			
	For 1 Pilot Market Group / PMG_□ (2-3 Pilot Markets) to choose			
Pilot Market Group*(3) / PMG to choose □	Pull Marketing	KAM + Presales	Push Marketing	Application of our Methods
